

Logrotate

cat /etc/logrotate.d/prod

```
/production/www/clients/prod.log{  
    daily  
    missingok  
    compress  
    delaycompress  
    notifempty  
    copytruncate  
    create 644 nom nom  
}
```

```
/production/www/clients/dev.log{  
    daily  
    missingok  
    compress  
    delaycompress  
    notifempty  
    copytruncate  
    create 644 nom nom  
}
```

Pour lancer logrotate:

logrotate -f /etc/logrotate.d/(ta conf)
