

# Powershell Azure : check IP disponible

Au besoin, pour savoir si une ip est disponible sur Azure :

```
Connect-AzAccount
```

Puis

```
Get-AzVirtualNetwork -Name NOMduVNET -ResourceGroupName RESSOURCEGROUP | Test-  
AzPrivateIPAddressAvailability -IPAddress IPàTESTER
```

```
PS C:\Windows\system32> Get-AzVirtualNetwork -Name " " -ResourceGroupName " " | Test-AzPrivateIPAddressAvailability -IPAddress .136.65  
Available : False  
AvailableIPAddresses : [  
    "136.69",  
    "136.71",  
    "136.72",  
    "136.73",  
    "136.74"  
]
```
